Dear Company:

Construction will begin in the summer of 2002 on the bridge replacement project on Route KK over Bob's Creek near the Route W intersection in Lincoln County. The proposed design specifies closing Route KK to through traffic, at the bridge site for approximately 4 - 5 months. A detour would be signed over Routes 61, 47 and W. This option is estimated to save an estimated \$450,000 in construction costs, when compared to an alternate plan of building a temporary route around the construction site.

Please let us know how closing this road will impact your service to area residents by completing the brief survey below and returning in the envelope provided by January 20, 2001. Thank you.
